

# Introducing the "Must Have" for your Video Tool Box.

ImagePRO is the all-in-one solution for most signal conversion needs. ImagePRO is a high performance digital video scaler, scan converter, standards converter, transcoder and switcher. It accepts a wide range of video input signals and converts them up or down into a number of different signal formats to meet the video requirements of virtually any application. ImagePRO allows you to scale video sources, mix and match them in any way while still maintaining a quality picture.

Complete your Video Tool Box with the latest MUST HAVE from from Barco Folsom: the ImagePRO Multi-Format Signal Processor.

Use ImagePRO to convert **from** any video format **to** any other video format, including:

|               |               |
|---------------|---------------|
| 4:3 to 16:9   | NTSC to HDSDI |
| NTSC to PAL   | HDSDI to PAL  |
| HDSDI to SDI  | PAL to SDI    |
| UXGA to NTSC  | SDI to VGA    |
| HDSDI to NTSC | NTSC to VGA   |
